GENERAL INFORMATION ABOUT

HEALTH SECURITY INFO:

Voluntary Work-camps Association of Nigeria (**VWAN**) is conscious about the wellness and health safety of international volunteers in our projects and will therefore advise that volunteers from our esteemed partners should ensure to strictly demonstrate absolute compliance to World Health Organization's (WHO) regulations and guidelines. Although, several countries have developed practical guidelines and approach suitable for border migration and administration. Wishing you safe trip to Nigeria.

Our History:

Voluntary Work-camps Association of Nigeria (**VWAN**) was founded in 1963 principally to reach out to rural community and employ all resources at her disposal to alleviate the challenges of rural community and as well organize laudable activities to empower the youngsters in the society especially the marginalized group with fewer opportunities.

Our Actions:

In order to address global challenges the organization has been arranging young people of like minds to work together with the community to realize basic necessities of life. This is done through selfless service and supporting the major stakeholders in contributing to nation building.

Our Values:

Various efforts of the government at meeting basic essentials of the society has not been sufficient enough. Hence, we mobilize social workers designated as 'volunteers' to provide some of these basic necessities in conjunction with stake holders. For this reason we shall keep investing our energies on creating volunteering opportunities that responds to the arising needs of the society and youth without prejudice, particularly of young people with fewer opportunities and special needs

Our Missions:

VWAN strives to promote volunteerism, culture of peace, intercultural exchange and international understanding and solidarity. VWAN is poised to inculcate the spirit of selfless service into the minds of people. We primarily seek to nurture and develop active citizenship in the society and young people in particular, thereby helping them to channel their creative energies into positive vistas of SDGs.

PROJECT	MODUPE CHILD PLACEMENT CENTRE
WORK START	ON-GOING
WORK END	ON-GOING
PERIOD	1 - 5 Months or Any Date preferred
APPLICATION DEADLINE	Open
DECISION DATE	3 weeks before Travel

Project Title: DISA – Social Inclusion

Project Site: **Modupe Child Placement Centre**

Type of Project: STV/MTV/LTV Volunteers Needed - International

Project Description

Project description and background: The existence of poor conditions cannot afford the handicapped children the opportunity to enter a bus by wheelchair, nor move around freely since there are no pavements and few care givers exist. Problems to attend schools or work equally became a threat to these vulnerable children.

The home consists of children and young adults with cerebral problems and some with impair speech and disability. The project accommodated both highly mentally and physically disabled youths of all ages (young children of ages 1-9 and older adults up to 50 years). As the name indicates, they are not able to move around and spend time on their beds. They are being fed, cared and washed by few staff.

There are boys' and girls' hostels, for the more self-dependent ones. They are split into those for mentally challenged (like Down-Syndrome, Autism) and those for only-physically challenged (e.g. Spinal Bifida), who use wheelchairs.

There is also a canteen, an assembly, a physio-therapy room, a vocational centre (here, they are trained in skills like beading, cooking, painting, computer, hair-styling and producing shoes and furniture) and a school, which is also attended by external pupils. In the school, there are classes of different levels of difficulty and one equivalent to Primary School. Now this Home and School are run under governmental governance and belongs to a widespread network of such institutions around Lagos. The NGO efforts is to temporarily complement the existing workforce in the home.

Work and tasks of the volunteer:

The volunteer can choose his or her area of work, since there are many fields on which a volunteer's help is needed. Volunteers are expected to provide the following services for the challenged and vulnerable children:

- auxiliary training in special areas related to their own social works
- assistance in moving physically challenged children around
- distribution of food and other materials
- organizing entertainment, cultural events and games
- courses of foreign languages, etc.)
- Helping the teachers in the school, e.g. paying special attention to one of the pupils or helping during breakfast break in feeding
- Helping the physio-therapist in treatments under his guidance, but also massaging and doing minor exercises with the people on his/her own
- Being active in the vocational centre, like bringing in new ideas, doing computer training etc.
- Helping the staff in the bed-ridden station with feeding during the meals, but also entertaining the people who spent days in their beds, like singing, caressing, taking them out (using a wheelchair)
- Entertaining the people by activities, such as dancing, singing, playing football or other games
- Associating with the people, also those who are not mentally challenged, to motivate them, help them learn simple tasks to make them more independent, take them for outings and help them find a way into social life

Study Path in the Project: Social Inclusion and Child Rights projects. The aim of the project is mainly to reform and create lovely and learning environment for the children in spite of their pathetic situation. It is also hoped that their neglected conditions is improved upon and to prevent the violation of Child rights. The

volunteers will appreciate everyday life, habits and culture of these children through practical and social help they will provide within the period.

Accommodation: Volunteer living apartment often times stay with host family closer to the project and if interested, volunteer can reside in a self-contained bedroom in project centre with available facilities.

Language: English is the general and official language for communication in the project

Requirement from Volunteer but flexible:

Volunteers should have good organisation, creativity and interest to work with kids. Be friendly and create a warm surrounding for the people who experience so much animosity in their lives; not to have a high reservation to disabled people; be creative and spontaneous in arranging activities and entertainments, as well as in daily tasks; be emotionally strong and ready to deal with unexpected situations; bring in good values, be passionate and act responsibly; to adapt and enjoy simple conditions of living such as food and accommodation; try to respect and understand other cultures

Location of the Project:

Child Treatment and Placement Home for vulnerable, handicapped and physically impaired children at Akoka – Bariga in Mainland Area of Lagos State

Other Information
