

MEDIUM TERM VOLUNTEER PROJECTS 2020

1.0 ABOUT UVIKIUTA-Tanzania

UVIKIUTA is a vibrant Youth development Organization that values volunteerism as a tool for sustainable development. The organization was established in 1983 to respond to the needs of young women and men to raise their living standards through developing and enhancing their social and economic capacities. Our goal is to contribute in building sustainable and self-reliant communities through providing holistic experience that broaden minds, expand horizons and empower young people and their communities to realize their full potential as productive, responsible and caring citizens. UVIKIUTA-Tanzania is founder member of the Eastern African voluntary service Network (EAVS-Network), formally EAWA, Long term partner with Service Civil International (SCI), Alliance, and NVDA among other Networks. We work also very close with Government Departments, United Nations Volunteer Program (UNV), learning institutions, Non-Government and Community based organizations.

3.0 MEDIUM TERM VOLUNTEER PROJECTS-2019

Medium term volunteer projects are unique program that connects people from around the world with local projects and communities in Tanzania. The program offers a powerful vision built on our belief that volunteers have a vital role to play in development and in building a more just and sustainable world society. Medium term Volunteer (MTV) projects offer an opportunity to work as a volunteer, experience different cultures, meet people from different countries, learn new or improve skills, take part in peace making and hands-on on various community based development projects. Location description	<p>The word "Marangu" means a place with too many water streams. It is one of the most popular places in Tanzania. Located at the foot of Africa's tallest mountain, the quaint village of Marangu offers fascinating insight into both modern Tanzanian life and into the lives of the Chagga people who once withstood vicious Maasai raids through the ingenious use of tunnels. Many Marangu residents are farmers growing bananas, vegetables and coffee. However, the biggest source of income is tourism. The Marangu route is the most popular hiking route in Africa. The facts and reality of Marangu makes this place accessible with all social, economic and security facilities. You will not regret to be in Marangu, Kilimanjaro.</p>		
Project description	<p>Differences in opinions, tastes, beliefs, other social and cultural norms in today's society is obvious. There are many factors but generational could be one of them. Due to technology and globalization the gaps have been even wider leading to serious issues like discrimination, losing social values and traditional education (Indigenous knowledge) and connection to the nature among many others. This project is aiming to explore, understand, challenge and act on the cross-generational issues leading to enhancing peace, solidarity and sustainable development. The project will involve people of different generations (Younger and older) in order to exchange experience and pass on knowledge.</p>		
Activities of the project	<p>Volunteers will be engaged in on the outlined activities below:-</p> <ul style="list-style-type: none"> △ Walking and exploration of indigenous communities living on the slopes of the Mount Kilimanjaro. <i>(Introduction to issues around globalization, environment and tourism and its impact on local economy and cultures)</i> △ Home stay/visits and cultural experience <i>(Be a friend, grandchild, child, sister or brother) in a local family,</i> △ Working with elders, orphans and vulnerable children <i>(storytelling, excursions, sports and community</i> 		

	<p><i>gatherings events, hygiene and cleaning, provide support on their daily activities)</i> to make them feeling valued, included and supported.</p> <p>△ Kiswahili Language Classes, arts and Crafts;</p> <p>Study Part: Educational tours to various destinations related to the project theme, Workshops, debates and other social events involving various generations of the community will be organized. Topics for discussion will include rites of passage, modern & traditional religion and its impact on social and economic aspects of the community. Volunteers are encouraged to study the topic in advance in their own local context and bring information for sharing.</p>

Project description	Nature conservation is a project focusing to the human actions directed towards maintaining the integrity and balance of the ecosystems and biodiversity. The end results is on preventing or correcting the damages the ecosystems suffer due to human activities. It is a fact that, human actions may only be enabled after a general awareness is raised about the ecological impact of human activities. It then translates into both individual and collective actions in many human activity fields that have an impact on nature, such as: Agriculture; Forests exploitation; Farming; Hunting and fishing; Water and waste management etc. In each of these fields, conservation programs strive to limit the negative impacts on nature or to correct them. The concept of nature conservation is built on a reasoned management of resources whereas the preservation concept works towards the protection of sensitive natural ecosystems against any human damage.

Project description	Nature conservation is a project focusing to the human actions directed towards maintaining the integrity and balance of the ecosystems and biodiversity. The end results is on preventing or correcting the damages the ecosystems suffer due to human activities. It is a fact that, human actions may only be enabled after a general awareness is raised about the ecological impact of human activities. It then translates into both individual and collective actions in many human activity fields that have an impact on nature, such as: Agriculture; Forests exploitation; Farming; Hunting and fishing; Water and waste management etc. In each of these fields, conservation programs strive to limit the negative impacts on nature or to correct them. The concept of nature conservation is built on a reasoned management of resources whereas the preservation concept works towards the protection of sensitive natural ecosystems against any human damage.
